SUMMARY

Mobile-focused Software Engineer with 3+ years of experience building cross-platform apps using React Native. Skilled in Firebase, Swift, and modern deployment workflows. Proven track record in delivering user-focused applications across healthcare, security, and live video domains. Currently seeking opportunities in Europe to contribute scalable mobile solutions in fast-paced teams.

PROFESSIONAL EXPERIENCE

Software Engineer, Diya Interactive **Feb 2023 - Aug 2025**

- Built cross-platform apps with React Native for domains like video streaming, healthcare, and security.
- Converted Figma designs into responsive React Native UIs, integrated Firebase Auth, Firestore, and Messaging for real-time operations.
- Implemented offline sync for field operations and wrote unit tests using Jest, lowering crash rates by 35%.
- Modernised Swift-based iOS apps and integrated SDKs, including AppsFlyer and TradeDoubler.
- Managed full iOS and Android deployment cycles, including TestFlight and Google Play releases.

Mobile Application Developer, AKM Solution **Jan 2022 - Jan 2023**

- Led the process of turning Figma designs into a Flutter app that works well on different devices.
- Implemented Firebase for authentication and seamless API integration.
- Maintained and optimised a WordPress-based e-commerce store

SKILLS

Programming & Frameworks: React Native, JavaScript, TypeScript, Flutter, Swift, Kotlin, Python
Tools & Platforms: Git, Firebase, WordPress, Xcode, Android Studio, Figma
Testing & Automation: Jest, Selenium

EDUCATION

Master in Applied Image and Signal Processing **Current**
Salzburg University

Bachelor of Science in Software Engineering – EQF Level 6 **Jan 2019 - March 2023**
Sir Syed University of Engineering and Technology, Karachi, Pakistan

- Key Modules: Mobile Application Development, Software Architecture, Data Structures & Algorithms, Database Systems, Web Technologies, Software Testing, AI Fundamentals.

ADDITIONAL INFORMATION

- **Languages:** English – B2 (Upper-Intermediate), German – A2 (Basic), Pashto – Native (Mother Tongue), Urdu – Native (National Language)
- **Certifications:** TypeScript Operator & Control Structures, Internet of Things (IoT) System development and App, Programming in Java, and Building a Website using WordPress.
- **Hobbies:** Culture Exploration, Exploring new tools & technologies, and Travelling
